

E15 (UNL88): Savings with Summer Sales

Nebraskans
are saving up to
\$0.15/GAL

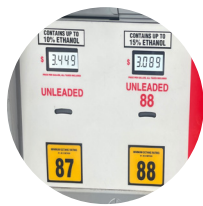

Minnesotans
are saving up to
\$0.36/GAL

Iowans
are saving up to
\$0.45/GAL

Wisconsinites
are saving up to
\$0.23/GAL

Ohioans
are saving up to
\$0.20/GAL

Pennsylvanians
are saving up to
\$0.20/GAL

E15 (UNL88), a 15% bioethanol blended fuel, is a lower-cost, lower-carbon option at the gas pump.

As a result of the temporary waivers issued in 2022, 2023, and 2024, consumers choosing E15 experienced average cost savings of 10-30 cents per gallon in summer 2023, with some locations offering over \$1 off per gallon.

**A NATIONWIDE, PERMANENT SHIFT TO E15 (UNL88) WOULD SAVE
\$20 BILLION+ IN FUEL COSTS EACH YEAR.**
