

# Growth Energy™

Expanding America's Bioeconomy

## The leading voice of America's biofuel industry.

Our members operate and support biomanufacturing facilities at the heart of America's bioeconomy, bringing consumers better choices at the pump, and delivering a new generation of low-carbon, plant-based solutions.

# Growth Energy™

Expanding America's Bioeconomy

## Biofuels Producers are Making an Impact

- ✓ **On the rural economy** by supporting 555,000 American jobs and saving drivers money on fuel.
- ✓ **On the environment** by producing low carbon biofuels which reduce greenhouse gas emissions by 46% compared to gasoline and reduce toxic emissions by up to 50%.
- ✓ **On energy security** by displacing 700 million barrels of oil every year with cleaner-burning, American-made biofuels.
